

We at I.T.S. Dental College and Hospital, Muradnagar believe that building a strong base while keeping our principles and morals intact, will help our students to become competent and confident in their respective fields. We constantly work for the welfare of our students so that they may become responsible doctors and may contribute in upgrading the health care facilities with their knowledge and experience. So we believe that - Knowledge is power. Information is liberating. *Education is the premise of progress, in every society, in every family.*

I.T.S. institute aims at providing the best of knowledge to the students in both theoretical and practical approach. Highly experienced mentors and teachers are always there to guide the students at every step. There is increase in educational tools available for students for finer and healthier learning. Advanced radiographic examination techniques like CBCT have been introduced in the college, so that the students are transparent in diagnosis and treatment planning as well as are always updated with the latest methods of learning.

From the starting, the undergraduate students are taught about basics of medicines like general and dental anatomy, human physiology, and pathology along with radiographic correlation which helps them in understanding the human body better while working practically and building a good rapport with the patients.

From the very beginning of their learning procedure, we aim at providing all the latest equipments knowledge to our students. Our undergraduate and postgraduate students are made to practise on loupes and microscopes, so they get an expanded overview of the anatomy of the teeth as well as get expertise in using these equipments. Pre implant comprehensive course along with training is provided to the students to boost their knowledge in implantology field prior to their clinical experience. Memorandum of Understanding has been signed between I.T.S Dental College and CWM (COWELLMEDI IMPLANTS) India on 6th April 2018.

- CWM INDIA in association with Bioner Implants, will conduct a 9 month long advanced implantology course for I.T.S students.

- This course will have 4 modules (3 days each), which will incorporate basics to advanced surgical training in implants.
- Every module will have a faculty of national reputation for 1 day in each module from CWM India.
- The company will provide teaching materials and Demo Units for all these modules.

Elaborating it further I.T.S. focuses on nurturing future endeavours along with continual innovation to leave an incredible mark of professional propensity and humanitarian ethos for generations to follow. Thus, our institution undertakes the charge to accomplish the needs of our patients along with the overall development of our students, thereby fulfilling our responsibilities towards the healthcare system. Our institute believes in fostering higher level of evidence based practise and learning to increase knowledge which will help our students in their future endeavours. In this way both our students and patients are benefitted.

The Memorandum of Understanding has been signed between I.T.S Dental College and CFAT (Centre for Facial Aesthetic Training) on 28th January 2022.

The Memorandum of Understanding has been signed between I.T.S Dental College and International Oncology Services Pvt Ltd – Fortis Hospital Noida on 15th March 2022.

As it is said – “the entire world is a laboratory to the inquiring mind”, our institute is a firm believer of cultivating the insight of research in our students. To inculcate this, I.T.S has established full-fledged research lab with an open access to students and Faculty so they can invest their skills in research projects and publications. The institute has successfully grabbed 18 prestigious ICMR grants in various dental subjects for successively 5 Years. To further amplify their work:

The Memorandum of Understanding has been signed between I.T.S Dental College and Prevest Denpro limited, on 29th day of April 2022. This has increased the research potential of the institution across all the branches of dentistry.

I.T.S. thoroughly works to maintain its high academic profile and significant achievements. A committed management, entrusted senior members and nationally and internationally acknowledged faculty bestow this place with high academic and clinical potential.

Success is no accident. It is hard work, perseverance, learning, studying, and *sacrifices to achieve what u want* to. Punctuality and dependability, initiative and flexibility, motivation and priorities, learning and self-reliance are the key objectives that define us today.

Accreditation to a health care organisation stimulates continuous improvement. It enables the organisation in demonstrating commitment to quality care. It raises community confidence in the services provided by the health care organisation. It also provides opportunity to healthcare unit to benchmark with the best. The college have been successfully NABH accredited, the first dental college to achieve this is in North India Region.

An outreach program is complete entanglement between the community and the health institution or organizations. It is an attempt by the organizing members to impart its objectives, opinions, skills and practices to the target population or general population thereby generating awareness and improving oral health. The community-based dental outreach programs play a very crucial role by introducing awareness through health education and dental adumbrating services to the community members. These programs are found to be very effective for diminishing health unevenness. I.T.S Dental College and Hospital is involved in these outreach programmes. Our college has seven satellite centres, rendering dental services in rural and urban areas. Skilled dental surgeons along with interns are posted in all the satellite centres to provide good dental care to the community. Our students, interns and post graduates are posted on rotational basis at Dasna Jail to treat the prisoners

Many outreach activities are conducted in the form of micro-group awareness camps and treatments, through 2 fully equipped mobile dental vans with eating capacity of 14 people. On an average 69 camps are held every month. The main aim of the camp is to provide awareness about the importance of oral health, screen oral diseases and to give basic oral treatment at the camp site. I.T.S Dental College is collaborated with National Service Scheme (NSS) in order to provide extended oral care to the poor and needy. Patients with extensive treatment needs are provided with transportation services twice a week along with special discounted cards.

These programs are also conducted in various schools (school dental camps) of both public and private sectors in urban and rural areas. Brushing techniques and oral hygiene instructions are given to the students to inculcate good oral habits from early age. Children's week celebrated in college act as an awareness program as well as motivational forum for the patients. The entire college gears up and gets divided into smaller groups to organize these events. Nukkad Nataks are also performed by the students for spreading awareness.

I.T.S Dental college has also adopted a village (Sultanpur) with a population of 3200. The residents of the village are provided with free health consultation, free dental treatment, free medicines and free dental kits. Dental camps are also organised every month to pertain the awareness about oral health.

Oral Cancer awareness is also a key part of patient education at camp sites. A special tobacco cessation unit is there in Dept of Public Health which helps patients to leave the habits and live a tobacco free life. Poor patients with oral cancer are treated in our Dept of Oral and Maxillofacial surgery at minimal possible cost.

Various events like World No Tobacco Day, World AIDS Day, World Cancer Day, World Health Day, International Women's Day etc, are also celebrated. On these special days like no tobacco day, students interact with the patients of nearby

area and educate them about the ill effects of tobacco. They also motivate them to live a tobacco free and healthy life. This helps in growth of the students along with the welfare of the patients. The hard work of the administration people, who work day and night, helps in building a strong base of the students along with their overall development, thus brightening their future.

I.T.S Dental College, Ghaziabad has also collaborated with Amar Ujala , Ghaziabad for “ Aparajita- 100 million smiles”, an initiative taken by Amar Ujala. The initiative aims at empowering people especially women and ensuring that their rights are fulfilled and dignity is maintained. We take pride in associating ourselves with such noble initiative and plan to provide quality oral and health services to women and girls.

Our I.T.S Pariwar believes that all these awareness programs, camps, satellite setups and going extra mile to provide treatment to the poor is the foundation of human care and social service. Our primary goal is to provide best dental treatment to the maximum population.

“Intelligence and skills can only function at the peak of their capacity when the body is healthy and strong.”

The students engaged in sports have good academic performance in college. The students evolve the coordination and enthusiasm for the studies as well as the athletic program. The sports facilities will improve and develop the fitness and concentration level of the students. Keeping this in mind I.T.S Dental College and Hospital has established Sports Complex where sports like badminton, table tennis, squash, are available.

“RANKING DOES NOT CONFER PRIVILEGE OR GIVE POWER, IT IMPOSES RESPONSIBILITY”

National ranking systems help to categorize the best universities and institutes which further help our students in choosing one for them. This system ensures to provide a scholastic world to the students, where institutes work harder every year to provide quality education to the students as par the international standards. I.T.S Dental College and Hospital have successfully achieved and continuously works to maintain so.

AWARDS AND RECOGNITION

Awards and accolades are pivotal in everyone's life. It shows approval and gratitude for each person's good job, and it makes people aware that good work will be rewarded. Recognizing success is also necessary. Even the slightest recognition works as a great motivation for the institution and encourages them to work even harder and sincerely.

I.T.S Dental College has received many awards which clearly justifies the hard work, determination and dedication of all the people of I.T.S family. The various awards since 2018 are:
