Report of 1st Module of 2nd Advanced Facial Aesthetics Course 2023-24 in association with Center for Facial Aesthetics Training (CFAT), New Delhi and Novgorod University, Russia

(18-19th September, 2023)

1. General:

I.T.S Dental College, Ghaziabad conducted the **1st Module of 2nd Advanced Facial Aesthetics Course 2023-24** in collaboration with **Center for Facial Aesthetics Training (CFAT), New Delhi** and **Novgorod University, Russia** on **18th&19th September 2023** which was part of a Six-module course of two days each.

A circular **Ref. No. I.T.S-CDSR/Director-Principal/2023/169** Dated **16th September 2023** was issued for the same.

2. Objectives:

This comprehensive, course aims to prepare the participants to successfully integrated Chemical peels, Botox, Laser Hair Reduction, Dermal fillers, and other facial esthetics treatments into the practice in future.

3. About the Speakers:

The mentors for this course were highly trained and experienced members from **Center for Facial Aesthetics Training (CFAT), New Delhi** which included Dr. Shourya Sharma,

Dr. Arun Srinivasan, Dr. Yashovardhana (MD Dermatology), & their team who have vast knowledge in the field of Facial Aesthetics and are conducting such courses regularly.

4. About the Program:

- The Day 1 of the course (18th September 2023) gave a deeper understanding of esthetic evaluation, diagnosis and application of Chemical peels in facial esthetic treatment as well as how to avoid and manage adverse events.
- The Day 2 of the course(18th September 2023) included the detailed sessions on the need, application and correct Botox injection techniques.
- This was followed by the live Demonstration and Hands-on workshop on patients for the participants on both the days.

5. Number of Participants:

1. Total No. Of Participants: 34

- Number of Post Graduate Students: 12
- Number of Interns Students: 08
- Number of Participant Faculty: 04
- Number of External Participants: 10

6. Outcome:

The outcome of this robust Advanced Facial Aesthetics Course is to enhance the students and practitioners understanding of facial injectables such as Botulinum toxins & Dermal fillers. This course is designed to provide a comprehensive understanding of facial aesthetics and the skills necessary for the delivery of excellent patient care.

7. Conclusion:

Our sincere thanks to our Honorable Vice Chairman, I.T.S-The Education Group, Shri. Arpit Chadha for his invaluable support and for envisioning such courses for the benefit of our students and faculty also.

Amal

A Feedback form was shared with the participants (29 participants responded):

| Heading | Excellent | Good | Average | Poor |
|--|-----------|------|---------|------|
| Clarity & Understanding of the Lecture | 20 | 8 | 1 | - |
| Demonstration of Live Cases | 17 | 12 | - | - |
| Hands on experience on patients (Chemical Peels) | 20 | 7 | 2 | - |
| Hands on experience on patients (Upper Face Botox) | 20 | 6 | 3 | - |

Observations:

1. Lack of clarity in audio-visual at few instances during the program.

Suggestions For Improvement:

1. Longer modules with more hands on experience

आईटीएस डेंटल कॉलेज में दूसरे एडवांस फेशियल एस्थेटिक्स कोर्स के पहले मॉड्यूल का हुआ आयोजन

कोई हम दगी रहा खार रियां वार्ड लेव

गाजियाबाद (हिन्द आत्मा)। आईटीएस डेंटल कॉलेज गाजियाबाद के पेरियोडोन्टोलॉजी विभाग द्वारा दूसरे एडवांस फेशियल एस्थेटिक्स कोर्स के पहले मॉड्यूल का आयोजन किया गया। इस कार्यक्रम में 34 प्रतिभागियों ने भाग लिया, जिनमें निजी दंत चिकित्सक कॉलेज के पूर्व छात्र, संस्थान के दंत चिकित्सक, एमडीएस के विद्यार्थी और कॉलेज के अध्यापक शामिल रहे। यह कोर्स सेंटर फॉर फेशियल एस्थेटिक्स

ट्रेनिंग (सीएफएटी) और नोवगोरोड विश्वविद्यालय, रूस के सहयोग से आयोजित किया गया। कार्यक्रम आईटीएस द एजुकेशन ग्रुप के वाईस चेयरमैन अर्पित चट्टा के सहयोग से आयोजित किया गया। इसका उद्देश्य मरीजों के बीच चेहरे के सौन्दर्य चिकित्सा के बारे में जागरूकता, चेहरे के सौन्दर्य में वृद्धि एवं रोगी को समग्र उपचार प्रदान करना रहा। कार्यक्रम के गेस्ट स्पीकर डॉ. शौर्य शर्मा एक

फेशियल एस्थेटिक्स चिकित्सक और अन्तर्राष्ट्रीय वक्ता, एक ट्रेनर और सेंटर फॉर फेशियल एस्थेटिक्स ट्रेनिंग (सीएफएटी) के अध्यक्ष भी हैं। कार्यक्रम के दौरान डॉ. शौर्य ने कॉस्मेटिक डेन्टिस्ट्री के अन्तर्गत चेहरे की सुंदरता को ज्यादा बढ़ाने के लिए विभिन्न विकल्पों के बारे में सभी प्रतिभागियों को समझाया। कार्यक्रम में डॉ. अरूण श्रीनिवासन और उनकी टीम ने भी डॉ. शौर्य के सहयोगी के रूप में

अपनी-अपनी भूमिका निभायी। कार्यक्रम का उद्देश्य प्रतिभागियों को बोटॉक्स, डर्मल फिलर्स, लेजर द्वारा बालों को कम करना, केमिकल पील्स और अन्य फेशियल एस्थेटिक्स उपचार को सफलतापूर्वक एकीकृत करने के लिये तैयार करना है। इसके साथ ही डॉ. शौर्य एवं उनकी टीम ने रोगियों पर केमिकल पील्स और बोटॉक्स का लाईव प्रदर्शन किया। इसके बाद प्रतिभागियों ने मरीजों पर इन नवीनतम

उपचारों को हैंड्स-ऑन किया गया। डॉ. शौर्य ने एमडीएस के विद्यार्थियों और अन्य दंत चिकित्सकों के लिये इस तरह के ज्ञानवर्धक मंच के आयोजन के लिये संस्थान को धन्यवाद दिया। कार्यक्रम के माध्यम से सभी प्रतिभागियों को सर्वश्रेष्ठ फेशियल एस्थेटिक्स उपचार के बारे में ज्ञान प्राप्त हुआ जिसके लिये सभी ने आईटीएस द एजुकेशन ग्रुप के चेयरमैन डॉ. आरपी चट्टा तथा वाईस चेयरमैन अर्पित चट्टा को धन्यवाद दिया।

आईटीएस डेंटल कॉलेज में फेशियल एस्थेटिक्स कोर्स के मॉड्यूल का आयोजन

शाह टाइम्स संवाददाता गाजियाबाद। आई.टी.एस डेंटल कॉलेज, गाजियाबाद के पेरियोडोन्टोलॉजी विभाग द्वारा दूसरे एडवांस फेशियल एस्थेटिक्स कोर्स के पहले मॉड्यूल का आयोजन किया गया। इस कार्यक्रम में 34 प्रतिभागियों ने भाग लिया जिनमें निजी दंत चिकित्सक कॉलेज के पूर्व छात्र, संस्थान के दंत चिकित्सक, एम.डी.एस के विद्यार्थी और कॉलेज के अध्यापक शामिल थे। यह कोर्स सेंटर फॉर फेशियल एस्थेटिक्स ट्रेनिंग (सी.एफ.ए.टी) और नोवगोरोड विश्वविद्यालय, रूस के सहयोग से आयोजित किया गया था।

यह कार्यक्रम आई.टी.एस द एजुकेशन ग्रुप के वाईस चेयरमैन, अर्पित चट्टा के सहयोग से आयोजित किया गया जिसका उद्देश्य मरीजों के

बीच चेहरे के सौन्दर्य चिकित्सा के बारे में जागरूकता बढ़ाना तथा चेहरे के सौन्दर्य में वृद्धि की मांग करने वाले रोगियों को प्राथमिक वैकल्पिक लक्ष्यों को प्राप्त करना एवं रोगी को समग्र उपचार प्रदान करना है। इस पाठ्यक्रम के गेस्ट स्पीकर डॉ. शौर्य शर्मा थे जो एक फेशियल एस्थेटिक्स चिकित्सक के साथ-साथ अन्तर्राष्ट्रीय वक्ता भी हैं।

जिनहोंने फेशियल एस्थेटिक्स पर इस तरह की अनेकों कार्यशालाएं की हैं। वह एक ट्रेनर के साथ-साथ सेंटर फॉर फेशियल एस्थेटिक्स ट्रेनिंग (सी.एफ.ए.टी) के अध्यक्ष भी हैं। कार्यक्रम के दौरान डॉ. शौर्य ने कॉस्मेटिक डेन्टिस्ट्री के अन्तर्गत चेहरे की सुंदरता को ज्यादा बढ़ाने के लिए विभिन्न विकल्पों के बारे में सभी प्रतिभागियों को समझाया। इस

कार्यक्रम में डॉ. अरूण श्रीनिवासन और उनकी टीम ने भी डॉ. शौर्य के सहयोगी के रूप में अपनी-अपनी भूमिका निभायी। इस पाठ्यक्रम का

उद्देश्य प्रतिभागियों को बोटॉक्स, डर्मल फिलर्स, लेजर द्वारा बालों को कम करना, केमिकल पील्स और अन्य फेशियल एस्थेटिक्स उपचार

को सफलतापूर्वक एकीकृत करने के लिये तैयार करना है। इसके साथ ही डॉ. शौर्य एवं उनकी टीम ने रोगियों पर केमिकल पील्स और बोटॉक्स का लाईव प्रदर्शन किया। इसके बाद प्रतिभागियों ने मरीजों पर इन नवीनतम उपचारों को हैंड्स-ऑन किया गया।

डॉ. शौर्य ने एम.डी.एस के विद्यार्थियों और अन्य दंत चिकित्सकों के लिये इस तरह के ज्ञानवर्धक मंच के आयोजन के लिये संस्थान को धन्यवाद दिया। इस कार्यक्रम के माध्यम से सभी प्रतिभागियों को सर्वश्रेष्ठ फेशियल एस्थेटिक्स उपचार के बारे में ज्ञान प्राप्त हुआ जिसके लिये सभी ने आई.टी.एस-द एजुकेशन ग्रुप के चेयरमैन डॉ. आरपी चट्टा तथा वाईस चेयरमैन अर्पित चट्टा को धन्यवाद दिया।

आईटीएस डेंटल कॉलेज में दूसरे एडवांस फेशियल एस्थेटिक्स कोर्स के पहले मॉड्यूल का आयोजन

तवीर न्यूज चन्दना जोशी गाजियाबाद। आईटीएस डेंटल कॉलेज, गाजियाबाद के पेरियोडोन्टोलॉजी विभाग द्वारा दूसरे एडवांस फेशियल एस्थेटिक्स कोर्स के पहले मॉड्यूल का आयोजन किया गया। इस कार्यक्रम में 34 प्रतिभागियों ने भाग लिए जिनमें निजी दंत चिकित्सक कॉलेज के पूर्व छात्र, संस्थान के दंत चिकित्सक, एमडीएस के विद्यार्थी और कॉलेज के अध्यापक शामिल थे। यह कोर्स सेंटर फॉर फेशियल एस्थेटिक्स ट्रेनिंग (सीएफएटी) और नोवगोरोड विश्वविद्यालय, रूस के सहयोग से आयोजित किया गया था।

गेस्ट स्पीकर डॉ शौर्य शर्मा ने रोगियों पर केमिकल पील्स और बोटॉक्स का दिया लाईव प्रदर्शन

गज केसरी युग

गाजियाबाद। दिल्ली मेट्रॉ रोड स्थित आईटीएस डेंटल कॉलेज मुरादनगर के पेरियोडोन्टोलॉजी विभाग द्वारा दूसरे एडवांस फेशियल एस्थेटिक्स कोर्स के पहले माँड्यूल का बुधवार को आयोजन किया गया। इस कार्यक्रम में 34 प्रतिभागियों ने भाग लिया, जिनमें निजी दंत चिकित्सक कॉलेज के पूर्व छात्र, संस्थान के दंत चिकित्सक, एमडीएस के विद्यार्थी और कॉलेज के अध्यापक शामिल थे। यह कोर्स सेंटर फॉर फेशियल एस्थेटिक्स ट्रेनिंग (सीएफएटी) और नोवगोरोड विश्वविद्यालय, रूस के सहयोग से आयोजित किया गया था।

यह कार्यक्रम आईटीएस-द एजुकेशन ग्रुप के वाईस चेयरमैन, अर्पित चड्ढा के सहयोग से आयोजित किया गया।

जिसका उद्देश्य मरीजों के बीच चेहरे के सौन्दर्य चिकित्सा के बारे में जागरूकता बढ़ाना तथा चेहरे के सौन्दर्य में वृद्धि की मांग करने वाले रोगियों की प्राथमिक वैकल्पिक लक्ष्यों को प्राप्त करना एवं रोगी को समग्र उपचार प्रदान करना है। इस पाठ्यक्रम के गेस्ट स्पीकर डॉ शौर्य शर्मा थे। जो

एक फेशियल एस्थेटिक्स चिकित्सक के साथ-साथ अंतर्राष्ट्रीय वक्ता भी है। जिन्होंने फेशियल एस्थेटिक्स पर इस तरह की अनेकों कार्यशालाएं की हैं। वह एक ट्रेनर के साथ-साथ सेंटर फॉर फेशियल एस्थेटिक्स ट्रेनिंग (सीएफएटी) के अध्यक्ष भी है। कार्यक्रम के दौरान डॉ शौर्य ने

कॉस्मेटिक डेन्टिस्ट्री के अन्तर्गत चेहरे की सुंदरता को ज्यादा बढ़ाने के लिए विभिन्न विकल्पों के बारे में सभी प्रतिभागियों को समझाया। इस कार्यक्रम में डॉ अरूण श्रीनिवासन और उनकी टीम ने भी डॉ शौर्य के सहयोगी के रूप में अपनी-अपनी भूमिका निभायी। इस पाठ्यक्रम का उद्देश्य प्रतिभागियों को बोटॉक्स, डर्मल फिलर्स, लेजर? द्वारा बालों को कम करना, कैमिकल पील्स और अन्य

फेशियल एस्थेटिक्स उपचार को सफलतापूर्वक एकीकृत करने के लिए तैयार करना है। इसके साथ ही डॉ शौर्य एवं उनकी टीम ने रोगियों पर केमिकल पील्स और बोटॉक्स का लाईव प्रदर्शन किया। इसके बाद प्रतिभागियों ने मरीजों पर इन नवीनतम उपचारों को हैड्स-ऑन किया गया। डॉ शौर्य ने एमडीएस के विद्यार्थियों और अन्य दंत चिकित्सकों के लिये इस तरह के ज्ञानवर्धक मंच के आयोजन के लिये संस्थान को धन्यवाद दिया। इस कार्यक्रम के माध्यम से सभी प्रतिभागियों को सर्वश्रेष्ठ फेशियल एस्थेटिक्स उपचार के बारे में ज्ञान प्राप्त हुआ जिसके लिये सभी ने आईटीएस-द एजुकेशन ग्रुप के चेयरमैन डॉ आरपी चड्ढा तथा वाईस चेयरमैन अर्पित चड्ढा को धन्यवाद दिया।

आईटीएस डेंटल कॉलेज में दूसरे एडवांस फेशियल एस्थेटिक्स कोर्स के पहले माँड्यूल का आयोजन

बुलन्द संदेश्य ब्यूरो

मुरादनगर। दिल्ली मेट्रॉ रोड पर असालत नगर के निकट स्थित आईटीएस डेंटल कॉलेज के पेरियोडोन्टोलॉजी विभाग द्वारा दूसरे एडवांस फेशियल एस्थेटिक्स कोर्स के पहले माँड्यूल का आयोजन किया गया। इस कार्यक्रम में 34 प्रतिभागियों ने भाग लिया जिनमें निजी दंत चिकित्सक कॉलेज के पूर्व छात्र, संस्थान के दंत चिकित्सक, एमडीएस के विद्यार्थी और कॉलेज के अध्यापक शामिल थे। यह कोर्स सेंटर फॉर फेशियल एस्थेटिक्स ट्रेनिंग (सीएफएटी) और नोवगोरोड विश्वविद्यालय, रूस के सहयोग से आयोजित किया गया था। यह कार्यक्रम आईटीएस-द एजुकेशन ग्रुप के वाईस चेयरमैन, अर्पित चड्ढा के सहयोग से आयोजित किया गया। जिसका उद्देश्य मरीजों के बीच चेहरे के सौन्दर्य चिकित्सा के बारे में जागरूकता बढ़ाना तथा चेहरे के सौन्दर्य में

First Module of 7th Comprehensive Oral Implantology Course 2023

Report

"Under the guidance of our honorable Vice Chairman, I.T.S-The Education Group, Mr Arpit Chadha, I.T.S Centre for Dental Studies & Research, Murad Nagar conducted the **1st Module** of the **7th Comprehensive Oral Implantology Course 2022-23** in collaboration with **University of Barcelona, Spain and GMI Implants Spain** on **28th January and 3rd and 4th February 2023**.

The course was redesigned for comprehensive learning with special focus on practical workshops, demonstrations and hands on teaching. The course saw enthusiastic delegate participation with a total of 49 participants enrolling for the course. The course participants included Interns, Post graduates & Faculty members from all dental specialities and external delegates from NCR.

Dr Basant Gupta, a renowned Prosthodontist and Implantologist from Jaipur, visited the institute to share his clinical experience, skills & knowledge with all the course participants.

The module consisted of introduction to the world of Implantology by the guest speaker. He introduced the GMI Frontier system (Spain) to all the course participants and performed a live Surgical Demonstration for all the delegates.

The first Module comprised of extensive lectures, clinical case discussions, multiple live surgical demonstrations and hands on session of CBCT and implant simulation software followed by Implant placement in dummy mandibles & live surgeries. The course participants will be placing Dental Implants and restoring the implants under the guidance of Course Faculty during the entire duration of the course

We are grateful to our honorable Vice Chairman Mr Arpit Chadha for envisioning such an exhaustive Oral Implantology course for the benefit of our Undergraduate and Postgraduate students.

A Feedback form was shared with the participants (49 participants responded)

| Heading | Excellent | Good | Average | Poor |
|--|------------------|-------------|----------------|-------------|
| Clarity & Understanding of the Lecture | 34 | 15 | 0 | 0 |
| Demonstration of Live Surgery | 33 | 16 | 0 | 0 |
| Hands on Osteotomy on Dummy mandible | 29 | 15 | 5 | 0 |
| Hands On – CBCT workshop | 37 | 11 | 1 | 0 |

Observations:

1. Lack of clarity in audio-visual at few instances during the program.
2. Insufficient numbers of Dummy models and kits

Suggestions For Improvement:

1. Getting the Audio-Visual wiring/equipment checked and changed and procuring a good quality camera for projection of intra oral procedures.
2. Better dummy models including maxillary models
3. Increased duration of CBCT workshop

Second Module of 7th Advanced Oral Implantology Course 2023

Report

"Under the guidance of our Hon'ble Vice Chairman, I.T.S-The Education Group, Mr Arpit Chadha, I.T.S Centre for Dental Studies & Research, Murad Nagar conducted the **2nd Module** of the **7th Advanced Oral Implantology Course 2022-23** in collaboration with **University of Barcelona, Spain and GMI Implants, Spain on 9th – 11th March 2023.**

The course was redesigned for comprehensive learning with special focus on practical workshops, demonstrations and hands on teaching. The course saw enthusiastic delegate participation with a total of 49 participants enrolling for the course. The course participants included Interns, Post graduates & Faculty members from all dental specialities and external delegates from NCR.

Dr Abhishek Bhardwaj, a renowned Oral Surgeon and Implantologist from Delhi, visited the institute to share his clinical experience, skills & knowledge with all the course participants.

The module consisted of comprehensive lecture on Implant Site Development by the guest speaker. He talked about various types of bone grafts and membranes used in implantology to all the course participants and performed a live Surgical Demonstration for all the delegates.

The Second Module comprised of extensive lectures, live surgical demonstration, clinical case discussions, demonstration of implant prosthetic components, and hands on sessions of various Suturing techniques and Implant treatment planning for all the participants. The course participants will be placing Dental Implants and restoring the implants under the guidance of Course Faculty during the entire duration of the course.

We are grateful to our hon'ble Vice Chairman Mr Arpit Chadha for envisioning such an exhaustive Oral Implantology course for the benefit of our Undergraduate and Postgraduate students.

A Feedback form was shared with the participants (48 participants responded):

| Heading | Excellent | Good | Average | Poor |
|--|------------------|-------------|----------------|-------------|
| Clarity & Understanding of the Lecture | 32 | 14 | 2 | - |
| Demonstration of Live Surgery | 32 | 16 | - | - |
| Hands-on cum Demo on Implant Prosthetic components | 29 | 18 | 1 | - |
| Workshop on treatment planning | 24 | 23 | 1 | - |
| Hands-on for suturing techniques | 40 | 8 | - | - |

Observations:

- 1. Lack of clarity in audio-visual at few instances during the program.**
- 2. Suction was not working properly during surgical case demonstration.**
- 3. Insufficient numbers of Dummy models and kits.**

Suggestions For Improvement:

- 1. Getting the Audio-Visual wiring/equipment checked and changed and procuring a good quality camera for projection of intra oral procedures.**
- 2. A stand-by surgical suction can be kept during the surgical demonstration.**
- 3. Better dummy models including maxillary models for better exposure of participants.**

REPORT ON

BASIC LIFE SUPPORT WORKSHOP

“10th-11th April 2023”

ORGANISED BY

General

Workshop on Basic Life support was organized in association with American Heart Association on 10th -11th April. The program had participation 40 individuals. The program was held in Lecture theatre-2.

Objective

1. The objective of the celebration was to educate the BDS and MDS students about the correct technique and assessment skills for providing basic life support.

About the Celebration

1. The program began with basic lecture about the importance of knowledge of basic life support
2. This was followed by a video and practical demonstration of correct technique of CPR.
3. The attendees then practiced on dummies
4. Demonstration followed by practical exercise on the full basic life support exercise including CPR, use of Automatic external defibrillator was done
5. CPR and AED in infants was also demonstrated.
6. The attendees were then given a Multiple choice question to assess their skills followed by a practical examination

Attendees

1. **BDS and MDS Students of the Dental College**

Demonstration Content

- Demonstration of Correct CPR technique on adults and infants
- Demonstration of one operator, 2 operator and 3 operation technique for CPR and Automatic external defibrillator.

Outcome

The attendees gained better knowledge of the assessment and technique for basic life support.

Conclusion

- The attendees learnt about the scenario assessment and technique for basic life support.

A Report on Cleftathon Programme 2023

Dr Krishnamurthy B and Dr Pritham N. Shetty

Cleft Lip and Palate

26th & 27th June, 2023

General

CDE Programme was organized in Kalpana Chawla Auditorium at I.T.S Centre for Dental Studies & Research, Ghaziabad on Monday and Tuesday, 26th and 27th June 2023. A brochure was published for the same on 16.06.2023.

Objective

The objective of this comprehensive program was to enhance the theoretical knowledge of the students and faculty members about cleft lip and palate through didactic lectures and to upskill the students and faculty members with the surgical management for the same through live surgical relays.

About the Speakers

- **DR. KRISHNAMURTHY B.:** He has done his MBBS from Kasturba Medical College in Manipal. BDS from Govt Dental College Bangalore. MDS-OMFS from Kasturba Medical College in Manipal initially, and later on in the United Kingdom. He has specialised in the discipline of Cleft Lip, Palate & Cranio-Facial Anomalies and runs a Cleft Palate Centre at the Bhagwan Mahaveer Jain Hospital Bangalore.
- **Dr. PRITHAM N. SHETTY:** He has done his BDS from SDM college Dharwad. MDS-OMFS from SDM College Dharwad. in India and M.O.M.R.C.P.S. from the Royal college of Surgeons Glasgow. He has specialised in the discipline of Cleft Lip Palate Cranio-Facial Anomalies and is a consultant in Cleft Palate Centre at the Bhagwan Mahaveer Jain Hospital Bangalore.

Attendees

The following is the summary of attendees for the programme:

Total Participants – 84 (outside delegates: 43, Inhouse delegates:41)

Invited Guest – 2

Total attendees - 86

A) Total Students who attended the program

Offline-84

B) Total Faculty who attended the program:

Offline-8

DAY 1

Lecture Content

Dr. Krishnamurthy B explained the intricacies of surgical management of cleft lip with lecture and recorded video demonstration.

Dr. Pritham Shetty gave a deep insight about the surgical management of cleft palate in his interactive session.

Live Surgery: A live interactive lip revision surgery was relayed to the audience.

DAY 2

Lecture Content

Dr. Krishnamurthy B explained the surgical management of alveolar bone grafting.

Dr. Pritham Shetty discussed the orthodontic consideration of alveolar bone grafting.

Live Surgery: A live interactive secondary alveolar bone grafting was relayed to the audience.

Outcome

- The students were able to understand the surgical anatomy and management of cleft lip and palate.
- The students were also familiarized with the surgical technique through the live surgical demonstration.

Conclusion

The lecture was concluded with a felicitation by presenting a memento and a vote of thanks for Dr. Krishnamurthy B. and Dr. Pritham N. Shetty.

Department of Oral and Maxillofacial Surgery

Presents

CLEFTATHON- CDE 2023

A MARATHON SESSION ON CLEFT LIP & PALATE.

ON

26th and 27th JUNE 2023

www.itsdentalcollege.com www.facebook.com/ITSdentalcollege.Ghaziabad www.instagram.com/its_dentalmuradnagar/

GUEST SPEAKERS

DR. KRISHNAMURTHY B.
MBBS, MDS, FDSRCS, FFDRCS

He has done his MBBS from Kasturba Medical College in Manipal. BDS from Govt Dental College Bangalore. MDS-OMFS from Kasturba Medical College in Manipal initially, and later on in the United Kingdom. He has specialised in the discipline of Cleft Lip, Palate & Cranio-Facial Anomalies and runs a Cleft Palate Centre at the Bhagwan Mahaveer Jain Hospital Bangalore.

DR. PRITHAM N. SHETTY
MDS, MOMRCS (GLASGOW)

He has done his BDS from SDM college Dharwad. MDS-OMFS from SDM College Dharwad. in India and M.O.M.R.C.P.S. from the Royal college of Surgeons Glasgow. He has specialised in the discipline of Cleft Lip Palate Cranio-Facial Anomalies and is a consultant in Cleft Palate Centre at the Bhagwan Mahaveer Jain Hospital Bangalore.

PROGRAMME SCHEDULE

DAY-1

- 08:15-08:30 REGISTRATION
- 08:30-08:45 WELCOME AND INTRODUCTION OF SPEAKERS
- 08:45-09:45 MANAGEMENT OF CLEFT LIP
- 09:45-10:45 MANAGEMENT OF CLEFT PALATE
- 10:45-11:15 TEA BREAK
- 11:15-01:15 CLEFT LIP- SURGERY
- 01:15-02:15 MANAGEMENT OF MAXILLARY CLEFT HYPOPLASIA
- 02:15-02:45 QUESTIONS/ ANSWER SESSION
- 02:45-03:30 LUNCH

DAY-2

- 08:30-09:30 ALVEOLAR BONE GRAFTING
ORTHODONTICS CONSIDERATION
- 09:30-10:30 SURGICAL MANAGEMENT OF
ALVEOLAR BONE GRAFTING
- 10:30-11:00 TEA BREAK
- 11:00-12:30 SECONDARY ALVEOLAR BONE
GRAFTING- SURGERY
- 12:30-02:30 CLEFT PALATE- SURGERY
- 02:30-03:30 LUNCH

DEPARTMENT OF CONSERVATIVE DENTISTRY & ENDODONTICS

Report of Intern Clinical Proficiency Module

(28th & 31st July, 2023)

General

Intern Clinical Proficiency Module was organized by Department of Conservative Dentistry & Endodontics, I.T.S Dental College, Ghaziabad on 28th & 31st July, 2023. A circular dated 24th July, 2023 was published for the program.

Objectives

The objective of the Intern Clinical Proficiency Module was to enhance and upgrade the student's clinical skills and abilities to overcome all these hassles which occur during restoring class II and Class IV cavities.

About the program

The program was organized for the interns in R. Ahmad Auditorium followed by demonstrations in Artificial Simulation Lab. The topic for the Intern Module was Predictable Class II and Class IV Composite Restoration. The program was conducted under the guidance of Dr Sonali Taneja (Prof & Head of Department). On day 1, the program started with an insightful lecture on isolation in dentistry by Dr. Anshul Arora, which was later followed by demonstrations by Dr. Abhik Mukherjee. On day 2, program started with enlightening lecture by Dr. Avinash on Class II and Class IV cavity preparation and problems associated with it. Then the program proceeded with demonstration of cavity preparation by Dr. Akriti Dheer.

Attendees

The following is the summary of attendees for the programme.

- a) Total no.of students who participated the program: 38
- b) Total no.of faculties who attended the program: 5

Outcome

The session emphasized on use of rubber dam for isolation in operative dentistry and its impacts on the longevity of the class II and Class IV restoration. The Comprehensive module also highlights on different class II and Class IV cavity preparation requiring conservation of the tooth structure.

Conclusion

The program concluded with an interactive question and answers session, discussion and hands on exercises by the Interns.

DEPARTMENT OF ORAL MEDICINE AND RADIOLOGY

CBCT-AN INSIGHT INTO CLINICAL INTERPRETATION

EVENT REPORT

25th and 26th August 2023

1. GENERAL

The CBCT module for the Interns was conducted by the Department of Oral Medicine and Radiology, I.T.S Dental College, Ghaziabad on 25th and 26th August 2023.

2. OBJECTIVE

The objective of the module was training of the Interns to read and interpret the CBCT images. Various case scenarios were discussed with the students using hands-on training and also highlighted relevant interpretation and to improve the Interns clinical abilities in the Imaging field.

3. ABOUT THE PROGRAMME

- The programme included thorough instructions on the basics of usage of CBCT software. Over two days, thorough clinical and theoretical lectures, hands-on training, and demonstration of different cases were given.
- The module on first day began with three sessions which included Introduction to CBCT by Dr. Akshay Rathore, Basics of Software and volume orientation by Dr. Anuradha Yadav, CBCT in Oral Implantology by Dr. Akshay Rathore.
- The second day session included lecture on basic principles of radiographic image interpretation by Dr. Roopika Handa. Hands-on CBCT in cysts of oro-facial region by Dr. Anuradha Yadav, CBCT in Tumours and TMJ pathologies by Dr. Akshay Rathore.

ATTENDEES

4. The following is the number of attendees in the lecture:
 - a. Total Number of Interns who attended the programme: 39
 - b. Total Number of Faculty who organised the programme: 03

LECTURE CONTENT

DAY 1:

SESSION 1: Lecture on Introduction to CBCT- Dr. Akshay Rathore

SESSION 2: Basics of Software – Dr. Akshay Rathore

SESSION 3: Volume orientation – Dr. Anuradha Yadav

SESSION 4: CBCT in Oral Implantology–Dr. Akshay Rathore

DAY 2:

SESSION 1: Lecture on Basic Principles of Radiographic Interpretation – Dr. Roopika Handa

SESSION 2: CBCT in Cysts of Oro-facial region – Dr. Anuradha Yadav

SESSION 3: CBCT in Tumors of Oro-facial region - Dr. Akshay Rathore

SESSION 4: CBCT in TMJ Pathologies– Dr. Akshay Rathore

OUTCOME

The module was highly appreciated and was attended by 39 Interns; all of them participated with great enthusiasm. The depth and dire requirement of CBCT modality in various branches of dentistry and to understand the sensitivity of the cases through CBCT was acknowledged by the participants.

CONCLUSION

The module was concluded with a vote of thanks to Director-Principal Sir, “Dr. Devi Charan Shetty” and Dean PG studies Dr. Sonali Taneja Ma’am. The motivation for these modules on CBCT training for Post-graduates was derived from our Honorable Chairman Sir, “Dr. R.P. Chadha” and Vice Chairman Sir, “Sh. Arpit Chadha.”

The entire participants were accorded with participation certificate of the Hands on workshop module.

I.T.S DENTAL COLLEGE-GHAZIABAD
Department of Oral and Maxillofacial Pathology and Microbiology
REPORT

Interns Clinical Ascendancy and Enhancement Program

Group B (August,2023)

1. General

The First Module of the Interns Clinical Ascendancy and Enhancement Program was organized by the Department of Oral and Maxillofacial Pathology and Microbiology, at I.T.S Dental College, Ghaziabad on 25th and 26th August, 2023. A circular dated 17.08.2023 was published for the program.

2. Objectives

The program aimed to provide a comprehensive understanding of the advanced techniques in Research and Diagnosis, through lectures, practical demonstrations and hands-on workshops. The primary objectives of the program were as follows:

1. Introduce interns to the latest advancements in research and diagnosis with a specific emphasis on digital technologies.
2. Familiarize interns with the principles of chair side investigations such as vital staining, autofluorescence, velscopy and vizilite.
3. Provide hands-on experience in exfoliative cytology, Toluidine blue and fluorescent staining morphometric analysis and haematological investigations including Hb, BT, CT, PRP and PRF.
4. Enhance the knowledge and skills of interns in the application of advanced chair side investigations in routine diagnosis.

3. About the event

The event took place over two days on 25th August and 26th August, 2023. The program encompassed a series of enlightening sessions and practical demonstrations, ensuring a well-rounded learning experience for the participants.

The program commenced with an insightful lecture on "An Update on recent concepts and methodologies of chair side Investigations," where the interns were introduced to the capabilities

and applications of these advanced techniques. The session highlighted the advantages of vital staining, autofluorescence, velscopy, vizilite, exfoliative cytology and KOH mount etc.

Program also featured an in-depth lecture on the "Hematological investigations and role of PRP and PRF in dentistry." This provided the interns with essential insights into all the advances in chair side investigations and their role in clinic-pathological correlation in order to achieve accurate diagnosis.

To further enhance the interns' understanding, the program included a in depth live demonstration by the faculty on "Exfoliative cytology, Morphometry, Vital staining and PRP and PRF preparation." Under the expert guidance of experienced oral pathologists, the interns had the unique opportunity to observe and learn from real patient cases, gaining valuable practical experience.

One of the program's highlights was the "Non-invasive photodetection method using Fluorescent dye" demonstration, showcasing the precision and efficiency of using Light cure in achieving accurate diagnosis. This session provided interns with a comprehensive understanding of the affordable screening technique in mass screening of oral cancer.

In addition to the demonstrations on real patients, the interns also engaged in a hands-on workshop involving macroscopic examination and tissue processing technique. These hands-on experience allowed the interns to practice and refine their skills in a simulated environment, building their confidence in applying these advancements in their routine clinical practice.

Throughout the event, the interns were guided through the intricacies of clinical examination. Interns were guided that oral examination and investigation is the foundation for good clinical impression and appropriate individualized therapy. The program successfully provided a solid foundation for the interns to incorporate digital technologies seamlessly into their future clinical diagnosis, ensuring they stay at the forefront of advancements in the field.

4. Attendees

A total of 31 students participated in day 1 of the program and 29 students in day 2 of the program.

5. Outcome

The First Module of the Interns Clinical Ascendancy and Enhancement Program was highly successful in achieving its objectives. The attendees gained valuable insights into the Advanced diagnostic aids in clinical assessment of oral pathologies and were exposed to cutting-edge technologies and techniques in the field. The faculty members played a pivotal role in the success of the event. They participated enthusiastically, demonstrating a wealth of knowledge and expertise in the field of oral pathology. Their passion for the subject matter inspired the students and created a conducive learning environment.

6. Conclusion

The First Module of the Interns Clinical Ascendancy and Enhancement Program focused on the Advanced diagnostic aids in clinical assessment of oral pathologies, providing a comprehensive platform for allenthusiastic interns to expand their knowledge and skills. The program successfully introduced interns to vital staining, autofluorescence, velscopy, vizilite, exfoliative cytology, morphometry, KOH mount and hematological investigations. The practical demonstrations and hands-on exercises were instrumental in reinforcing the theoretical knowledge and preparing the interns for the challenges of routine clinical diagnosis. Overall, the program served as an excellent foundation for the interns' future endeavors in the field of Oral Pathology and Microbiology.

A Report on Intern ascendency program- module 1

28thand 31stJuly 2023

General

The Intern ascendency program was conducted by the department of orthodontics on 28thand 31stJuly. The program had the participation of 23 Interns. The program comprised of lectures and Hands on experience in relation diagnosis and treatment planning.

Objective

The objective of thistwo day program was to teach the correct method of diagnosis and treatment planning in an orthodontic patient.

LECTURE CONTENT

DAY-1

- The lecture on case history taking was taken by Dr Divya Shetty(Professor)
- Demonstration followed by hands on exercise of diagnostic impressions was taken by Dr Prakash VS (Senior Lecturer)
- Demonstration followed by hands on exercise of intra and extraoral photographs was taken by Dr Bhupender. (Senior Lecturer)

Day-2

Lecture on

- diagnosis and treatment planning
 - Appliance selection : Removable v/s fixed Orthodontics
 - Extraction Decision: Non extraction / Extraction case
- were conducted by Dr Piush Kumar (Professor)

Hands on demonstration and practical of digital cephalometry was given by Dr Shubhangi Jain

Attendees

The following is the summary of attendees for the programme:

Total Participants – 23

Outcome

- The students were familiarized with diagnosis of treatment planning of an orthodontic patient
- They had an opportunity to get a hands on experience of record taking for such patient.
- Students attained a better understanding of the digital cephalometry.

Conclusion

The program was concluded and feedback was taken from the students

Delhi-Meerut Road, Muradnagar, Ghaziabad, UP

DEPARTMENT OF PERIODONTICS

Report of Intern Clinical Proficiency Module

(9th & 10th OCTOBER, 2023)

General

Intern Clinical Proficiency Module was organized by Department of PERIODONTICS, I.T.S Dental College, Ghaziabad on 9th & 10th OCTOBER, 2023. A circular dated 6th October, 2023 was published for the program.

Objectives

The objective of the Intern Clinical Proficiency Module was to enhance and upgrade the student's clinical skills and abilities to in laser and microsurgical dentistry

About the program

On the Day 1(9th October), the topic discussed was magnification in Day to day Periodontics. There were two clinically oriented interactions at the Kalpana Chawla auditorium between 9 am to 10 am. The demonstration of the suturing techniques was held in the Seminar Room of the Department of Periodontics. The students were divided into 3 groups and demonstration was given on the pillow. The suturing techniques (Simple interrupted, figure of 8, horizontal mattress and vertical mattress) with magnification using loupes were demonstrated using a 4-0 suture needle and thread.

The students were divided into small groups of 4 and they practiced on the pillow. All doubts regarding the suturing techniques were discussed and cleared. After lunch, further practice was done on the pillows. Discussion on the principles of suturing and Instrument stabilization and activation was also done during their practice session.

Some of the students completed their patient work using loupes. Others were asked to bring their sterilized instrument kit for patient work on Day 2.

The Day 2 of the program also started with two clinically oriented lectures between 9 and 10 am in the board room regarding Lasers in Day to Day Periodontics. The students were given a live demonstration of the working of the LASER model, various tips and Incisions. Laser safety was also discussed in detail. Live surgical video of Laser Depigmentation was relayed at Kalpana Chawla for the interns. An interactive session followed the demonstration.

After a Hands on of the students on a tomato, they were given patient work. They were asked to use loupes and complete the scaling of the patient.

At the end of the program a feed back form was filled by the interns.

Attendees

The following is the summary of attendees for the programme.

a) Total no.of students who participated the program: 38

b) Total no.of faculties who conducted the program:6

Outcome

The session emphasized on use of magnification and LASERs in Periodontics and its advantages over conventional dentistry. The Comprehensive module also highlights on clinical applicability in different procedures.

Conclusion

The program concluded with an interactive question and answers session, discussion and hands on exercises of suturing using loupes and LASER by the Interns.

I.T.S Dental College, Ghaziabad

Department of Public Health Dentistry

REPORT

Interns Clinical Ascendancy and Enhancement Program

Group B (25th -26th August 2023)

1.General

The First Module of the Interns Clinical Ascendancy and Enhancement Program was organized by the Department of Public Health Dentistry, at I.T.S Dental College, Ghaziabad on 25th and 26th August, 2023. A circular dated 17.07.2023 was published for the program.

2.Objectives

The program aimed to provide a comprehensive understanding of the Caries Risk Assessment through lectures, practical demonstrations and hands-on workshops. The primary objectives of the program were as follows:

1. Introduce interns to the various Caries Risk Assessment tools aimed at illustrating the multifactorial background of dental caries in a simple way.
2. Familiarize interns with the principles of caries risk factors including interaction of caries related factors.
3. Provide hands-on experience on Cariogram Software and CAMBRA Caris Risk assessment tool.
4. Enhance the knowledge and skills of interns in the application of caries risk assessment tools in clinical practice and research purpose
5. Facilitate interns on planning targeted preventive measures based on the caries risk of the individual.

3.About the event

Department of Public Health Dentistry held an intern clinical ascendancy programme on **“CARIES RISK ASSESSMENT TOOLS”** as part of **“ORAL DISEASES RISK ASSESSMENT FOR PREVENTION AND EARLY INTERVENTION”** which are

currently the upcoming modern methods of detecting and reducing caries prevalence. Knowledge and awareness of the preventive components of oral and dental health are typically not put into practice, resulting in a high prevalence of dental disease, particularly caries, in the community. Dental caries is the most common dental condition that has a negative impact on oral health. If health care professionals can identify caries risk factors in their early stages, they can help prevent cavitations. To improve the interns clinical abilities in the field, the Department of Public Health Dentistry at I.T.S Dental College in Ghaziabad offered a two-day module on clinical ascendancy and enhancement on Oral Diseases Risk Assessment for Prevention and Early Intervention. The students were taught in detail about all of the assessment tools, as well as a proper hands-on with patients

ON DAY 1:

Students were taught in depth about the CARIOGRAM which is a new concept which is used as an educational model aiming at illustrating the multifactorial background of dental caries. The students were trained to use the cariogram software and to do caries risk assessment on patients using CARIOGRAM software. Students were also trained about saliva collection and colony counts using the Research Laboratory in the ITS Dental College Campus. Every student of the module was given a different patient to use the Cariogram for better learning and individualized treatment plan of each patient was discussed with the students.

ON DAY 2:

On the next session, students were introduced and trained in usage of CAMBRA (CARIES MANAGEMENT BY RISK ASSESSMENT). The students were trained in managing caries before caries reaches the stage of cavitation. thoroughly being discussed another tool. Each student was individually discussed about the tool, and hands-on practice was also done in the OPD section by giving each student one patient.

4. Attendees

A total of 21 students participated in the program

5. Outcome

The First Module of the Interns Clinical Ascendancy and Enhancement Program was highly successful in achieving its objectives. The attendees gained valuable insights into the Caries Risk Assessment and its application in clinical practice and research purpose. The faculty members

played a pivotal role in the success of the event. They participated enthusiastically demonstrating a wealth of knowledge and expertise in the field of Oral Disease Risk Assessment.

6. Conclusion

The First Module of the Interns Clinical Ascendancy and Enhancement Program focused on the Caries Risk Assessment Tools. It provided a platform for interns to further enhance their knowledge and skills in prevention of dental caries. The program successfully introduced interns the Cariogram and CAMBRA as a risk assessment tool for dental caries, illustrate the interaction of caries related factors and chance to avoid caries, express caries risk graphically, recommend targeted preventive actions and the application of the same in clinical practice and educational programs

I.T.S CENTRE FOR DENTAL STUDIES & RESEARCH
Delhi- Meerut Road, Muradnagar, Ghaziabad.UP
Department Of Prosthodontics and Oral Implantology

REPORT

Interns Clinical Ascendancy and Enhancement Program

Group A (July,2023)

1.General

The First Module of the Interns Clinical Ascendancy and Enhancement Program was organized by the Department of Prosthodontics and Oral Implantology, at I.T.S Dental College, Ghaziabad on 28th and 31st July, 2023. A circular dated 24.07.2023 was published for the program.

2.Objectives

The program aimed to provide a comprehensive understanding of the Digital Revolution in Fixed Prosthodontics through lectures, practical demonstrations and hands-on workshops. The primary objectives of the program were as follows:

1. Introduce interns to the latest advancements in Fixed Prosthodontics with a specific emphasis on digital technologies.
2. Familiarize interns with the principles of tooth preparation for all-ceramic or zirconia crowns.
3. Provide hands-on experience in Digital Impression techniques for FPD using Intra-Oral Scanners.
4. Enhance the knowledge and skills of interns in the application of digital tools in prosthodontic procedures.

3.About the event

The event took place over two days on 28th July and 31st July, 2023. The program encompassed a series of enlightening sessions and practical demonstrations, ensuring a well-rounded learning experience for the participants.

The program commenced with an insightful lecture on "Intra Oral Scanners," where the interns were introduced to the capabilities and applications of these advanced devices. The session

highlighted the advantages of digital impressions over traditional methods, emphasizing the importance of embracing digital technologies in contemporary prosthodontic practices.

Program also featured an in-depth lecture on the "Principles of Tooth Preparation for All Ceramic Crown." This provided the interns with essential insights into achieving optimal outcomes with all-ceramic crowns while incorporating digital techniques.

To further enhance the interns' understanding, the program included a remarkable live demonstration by the faculty on "Tooth Preparation for Zirconia Crown on Patients." Under the expert guidance of experienced prosthodontists, the interns had the unique opportunity to observe and learn from real patient cases, gaining valuable practical experience.

One of the program's highlights was the "Digital Impression Technique for Fixed Partial Dentures (FPD)" demonstration, showcasing the precision and efficiency of using Intra-Oral Scanners in creating accurate restorations. This session provided interns with a comprehensive understanding of the digital workflow in FPD fabrication.

In addition to the demonstrations on real patients, the interns also engaged in a hands-on workshop involving "Digital Impression of FPD on Typodonts" using Intra-Oral Scanners. This hands-on experience allowed the interns to practice and refine their skills in a simulated environment, building their confidence in applying digital techniques.

Furthermore, to broaden the scope of learning, the program included a special session on "Digital Impression Technique of Implants using Implant Scan Body and Intra Oral Scanner." This segment allowed the participants to gain hands-on experience in capturing digital impressions for implant restorations, enhancing their skills in this critical aspect of prosthodontic practice.

Throughout the event, the interns were guided through the intricacies of digital workflows in fixed prosthodontics, preparing them to embrace the ongoing digital revolution in dental practices. The program successfully provided a solid foundation for the interns to incorporate digital technologies seamlessly into their future prosthodontic procedures, ensuring they stay at the forefront of advancements in the field.

4.Attendees

A total of 28 students participated in the program

5. Outcome

The First Module of the Interns Clinical Ascendancy and Enhancement Program was highly successful in achieving its objectives. The attendees gained valuable insights into the Digital Revolution in Fixed Prosthodontics and were exposed to cutting-edge technologies and techniques in the field. The faculty members played a pivotal role in the success of the event. They participated enthusiastically, demonstrating a wealth of knowledge and expertise in the field of prosthodontics and digital dentistry. Their passion for the subject matter inspired the students and created a conducive learning environment.

6. Conclusion

The First Module of the Interns Clinical Ascendancy and Enhancement Program focused on the Digital Revolution in Fixed Prosthodontics, providing a comprehensive platform for 28 enthusiastic interns to expand their knowledge and skills. The program successfully introduced interns to Intra Oral Scanners, principles of tooth preparation for different crowns, and Digital Impression techniques for Fixed Partial Dentures. The practical demonstrations and hands-on exercises were instrumental in reinforcing the theoretical knowledge and preparing the interns for the challenges of modern prosthodontic practice. Overall, the program served as an excellent foundation for the interns' future endeavors in the field of Prosthodontics and Digital Dentistry.

February 20th, 2023

A Post graduate training program on CBCT is being organised by “Centre for Advanced Imaging” under the aegis of Department of Oral Medicine & Radiology, I.T.S – CDSR as per the programme mentioned below. It is mandatory for all the Final Year and Second Year Post Graduates of all departments to attend the same.

| BATCH | VENUE | DATES | TIME |
|--------------|--------|-------------------------|-------------|
| MDS 3RD YEAR | LT – 4 | 23rd & 24th March, 2023 | 1 PM – 3 PM |
| MDS 2ND YEAR | LT – 4 | 24th & 25th April, 2023 | 1 PM – 3 PM |

Participants – Second year and Final year MDS students of all specialities.

Objectives of this course

- Is to provide theoretical and practical training sessions in all aspects of CBCT imaging relevant to the Dental and maxillofacial region.
- To enable the participants to understand CBCT technology, its various clinical applications and to help develop skills for interpretations and enable use of the software.
- The course will be delivered by means of didactic lectures, case demonstration, hands-on case interpretations and interactive discussions.

**The learning preparation required for the module from your side shall be informed to you one week prior to the course and course study material shall also be shared.*

**Please note all participants are required to bring their fully charged Laptop with USB / Wired Mouse mandatorily on all the days*

**All HOD's to ensure that no patients are appointed during this time period.*

***Attendance is compulsory for the concerned post graduates for the program.**

I.T.S Centre for Dental Sciences & Research, Murad Nagar
DEPARTMENT OF ORAL MEDICINE AND RADIOLOGY
CBCT-AN INTEGRATED POSTGRADUATE CLINICAL WORKSHOP

EVENT REPORT

13th and 15th May 2023

GENERAL

1. The CBCT module for the Post-graduates was conducted by the Department of Oral Medicine, Diagnosis and Radiology, I.T.S Dental College Ghaziabad on 13th and 15th May 2023.

OBJECTIVE

2. The objective of the Module was training of the PGs to read and interpret the CBCT images. Various case scenarios were discussed with the students using hands-on training and also highlighted relevant interpretation and to improve the PG's clinical abilities in the Imaging field.

ABOUT THE PROGRAMME

3. The programme included thorough instructions on the basics of usage of CBCT software. Over two days, thorough clinical and theoretical lectures, hands-on training, and demonstration of different cases were given.
4. The module on first day began with three sessions which included Introduction to CBCT by Dr. Roopika Handa, CBCT in Oral Implantology by Dr. Akshay Rathore, CBCT in Maxillofacial pathology by Dr. Anuradha Yadav and Imaging of Endo-Perio lesions by Dr. Akshi Choudhary.
5. The second day session included CBCT in Oral Surgery by Dr. Anuradha Yadav, CBCT in Endodontics by Dr. Akshay Rathore and CBCT in Orthodontics & Periodontics by Dr. Akshi Choudhary.

ATTENDEES

6. The following is the number of attendees in the lecture:
 - a. Total Number of PGs who attended the programme : 40 (2nd Year PGs)
 - b. Total Number of Faculty who organised the programme : 04

LECTURE CONTENT

DAY 1:

SESSION 1: INTRODUCTION TO CBCT- Dr. Roopika Handa

SESSION 2: CBCT IN ORAL IMPLANTOLOGY – Dr. Akshay Rathore

SESSION 3: CBCT IN MAXILLOFACIAL PATHOLOGY - Dr. Anuradha Yadav

DAY 2:

SESSION 1: CBCT IN ORAL SURGERY – Dr. Anuradha Yadav

SESSION 2: CBCT IN ENDODONTICS- Dr. Akshay Rathore

SESSION 3: CBCT IN ORTHODONTICS & PERIODONTICS– Dr. Akshi Chaudhary

OUTCOME

The module was highly appreciated and was attended by 40 PGs; all of them participated with great enthusiasm. The depth and dire requirement of CBCT modality in various branches of dentistry and to understand the sensitivity of the cases through CBCT was acknowledged by the participants.

CONCLUSION

The module was concluded with a vote of thanks to Director-Principal Sir, “Dr. Devi Charan Shetty” and Dean PG Dr. Sonali Taneja Ma’am. The motivation for these modules on CBCT training for Post-graduates was derived from our Honorable Chairman Sir, “Dr. R.P. Chadha” and Vice Chairman Sir, “Sh. Arpit Chadha.”

The entire participants were accorded with participation certificate of the Hands on workshop module.

Circular

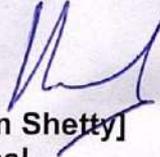

Ref.No.I.T.S-CDSR/Director-Principal/2023/063

27th February, 2023

The College has decided to start a **short posting** from 13th March, 2023 for the **Second year Post-Graduate Students** to other departments with the aim of providing them clinical exposure/training in all the specialties and enhance their clinical skills. A schedule for the same has been prepared and attached herewith.

- Each second year post-graduate of every department will go to all the other departments as per the schedule attached.
- The postgraduates of each department have been divided into two batches: Batch A and Batch B. Batch A will comprise of students from Roll No.1-3 and Batch B comprises of students from Roll No. 4-6.
- Each Batch will be posted for 3 days in a week from Monday to Wednesday to the various departments according to the roster. The posting will be from 10:00AM - 01:30 PM. The student can come back to their respective departments from 1:30 PM onwards to attend to their patients.
- The remaining 3 days i.e. Thursday to Saturday, the students will be posted in their parent department but can finish their pending quota of the posting if any.
- Lectures/discussions can be held together for both the batches A & B of one department during the morning session on the first day of the posting. Two lectures of a maximum duration of 45 minutes each can be taken.
- At the end of the day the postgraduates should get their Log book/ Quota signed by the concerned Head of the Department.
- The PG teaching program (seminars/JC's/ case presentations etc.) of the departments shall be held as per schedule till 10:00 a.m. before the posting time.
- Head of the Departments to kindly ensure the posting is conducted/ monitored by senior faculty.
- At the end of all the postings, a certificate with grading will be awarded to the student.

All HOD's are requested to kindly send the day wise program schedule to the undersigned latest by 6th March, 2023.
