(BDS-09N)

Time : Three Hours] [Maximum Marks : 70

Note : Attempt **all** questions. Use separate copy for **Part-I** and **Part-II**. Draw labeled diagrams wherever necessary.

Part-I

1. Classify Odontogenic Cysts. Discuss in detail Clinical Features, Radiographic and Histopathologic features of Radicular Cyst. 10
2. (a) Amelogenesis Imperfecta. 8
(b) Mucoepidermoid Carcinoma. 8

P.T.O.

3. (a) Pyogenic Granuloma. 3
(b) Anug. 3
(c) Fusion, Gemination and
Concrescence. 3

Part-II

4. Discuss in detail about Etiology,
Pathogenesis, Histopathology and
Grading of oral squamous cell carcinoma. 10
5. (a) Oral Manifestations of HIV. 8
(b) Fibrous Dysplasia. 8
6. (a) Bell's Palsy. 3
(b) LIP Prints. 3
(c) Zones of Enamel Caries. 3

ORAL PATHOLOGY & MICROBIOLOGY

(BDS-09)

Time : Three Hours]

[Maximum Marks : 70

Note : Attempt **all** questions. Use separate copy for **Part-I** and **Part-II**. Draw labeled diagrams wherever necessary.

Part - I

1. Define dental caries. Describe the etiological theories of dental caries. 10
2. Describe histopathology of-
 - (a) Hodgkin's Lymphom 8
 - (b) Odontogenic keratocyst 8

P.T.O.

3. Write short notes on:
- (a) Geographic Tongue 3
 - (b) Dilaceration 3
 - (c) Trigeminal neuralgia 3

Part - II

4. Classify tumours of the salivary glands. Describe the pathogenesis, clinical features, and histopathologic features of pleomorphic adenoma. 10
5. Discuss briefly:
- (a) Paget's disease 8
 - (b) Ameloblastic fibroma 8
6. Write briefly on:
- (a) Iron deficiency anemia 3
 - (b) Oral manifestations of Tuberculosis 3
 - (c) Dry socket 3

Time : Three Hours / [Maximum Marks : 70

Note : Attempt **all** questions. Use separate copy for **Part-I** and **Part-II**. Draw labeled diagrams wherever necessary.

Part - I

1. Classify fibero-osseous lesions.
Describe etiology, clinical features and histopathology of fibrous dysplasia. 10
2. Describe histopathology of :
 - (a) Adenoid cystic carcinoma 8
 - (b) Radicular cyst 8

P.T.O.

3. Write short notes on:
- (a) Candidiasis 3
 - (b) Gardner's Syndrome 3
 - (c) Ludwig's Angina 3

Part - II

4. Enumerate various non odontogenic tumours of epithelial origin. Describe oral squamous cell carcinoma in detail.

10

5. Discuss briefly:
- (a) Osteosarcoma 8
 - (b) Dentinogenesis Imperfecta 8
6. Write briefly on:
- (a) Bell's Palsy 3
 - (b) Caries activity tests 3
 - (c) Congenital S/phillis 3

Part-I

Long Question.

1. Discuss the odontogenic tumours arising from both epithelium and mesenchyme. 10
2. Short notes :
 - (a) Pleomorphic Adenoma 8
 - (b) Epithelial Dysplasia 8
3. Short notes
 - (a) Pemphigus 3
 - (b) Sickle Cell Anemia 3
 - (c) Gardner Syndrome 3

5143(N)

[P.T.O.]

37

(2)

Part-II

4. Discuss the fibro osseous lesions of the oral cavity. 10
5. Short notes :
- (a) Necrotising Sialometaplasia 8
 - (b) Pigmentation of the oral cavity 8
6. Write brief on :
- (a) Osteomyelitis 3
 - (b) Syphilis 3
 - (c) Hemangioma 3

5143(N)

3. Write short notes on :
- (a) Talon's Cusp 3
 - (b) Cellulitis 3
 - (c) Gardner Syndrome 3
- Part-II**
4. Define dental caries. Discuss about the theories of dental caries & add a short note on nursing bottle caries. 10
5. Discuss briefly :
- (a) Lip prints 8
 - (b) Tuberculosis 8
6. Write briefly on:
- (a) Pulp stones 3
 - (b) Stevend Johnson Syndrome 3
 - (c) Oral Manifestations of Iron deficiency anemia 3

2. Write notes on : 4x2=8

(a) Pemphigus vulgaris

(b) Pyogenic Granuloma

3. Write short notes on : 3x3=9

(a) Periapical abscess

(b) Pulp polyp

(c) Trigeminal Neuralgia

PART II

4. Enumerate skin lesions with oral manifestations. Describe in detail lichen planus. 8

5. Write notes on : 4x2=8

(a) Odontogenic Keratocyst

(b) Candidiasis

6. Write short notes on : 3x3=9

(a) Vit. C. deficiency

(b) Taurodontism

(c) Odontome

ORAL PATHOLOGY & MICROBIOLOGY

Paper-III

(BDS-09)

Time : Three Hours]

[Maximum Marks : 50

Note: Attempt all questions. Draw labelled diagrams wherever necessary. Use separate copy for each parts.

Part-I

1. Define and classify osteomyelitis of jaws. Describe the etiopathogenesis and histopathology of chronic osteomyelitis of mandible. 7
2. Describe histopathology of the following: 9
 - (a) Pleomorphic adenoma 1/2
 - (b) Keratocyst  1/2
 - (c) Pyogenic granuloma 1/2

LIBRARY

ITS Dental College Hospital & Research Centre
47, Knowledge Park-II, Greater Noida

3. Write short notes on the following :

- (a) Chronic periodontitis 2
- (b) Cleidocranial dysostosis 1
- (c) Gingival hyperplasia. 2

Part-II

4. What do you understand by precancerous lesions ?

Enumerate the precancerous lesions of oral cavity and discuss leucoplakia in detail.

5. Describe histopathology of the following :

- (a) Mucocoele
- (b) Fibrous epulis
- (c) Verrucous carcinoma. 2

6. Write short notes on the following :

- (a) Fordyce's spots
- (b) Ludwig's angina
- (c) Acute Necrotizing Ulcerative Gingivitis. 2

Oral Pathology & Microbiology

(BDS-09)

Time : Three Hours}

{Maximum Marks : 50

Note: Attempt all questions. Use separate copy for part I & part II. Draw labelled diagrams wherever necessary.

PART - I

1. Define premalignant lesion and premalignant condition. Using a tabular format compare the etiopathogenesis, clinical features, histopathology and malignant potential of lichen planus and leukeo plakia. 8
2. Describe the histopathology of :
 - (a) Odontogenic Keratocyst 4
 - (b) Pemphigus Vulgaris 4
3. Write short notes on :
 - (a) Garre's osteomyelitis 3
 - (b) Mucocoele 3
 - (c) Pulp polyp 3

PART - II

4. List the various salivary gland tumors and describe in detail the clinical and histopathological features of pleomorphic adenoma. 8
5. Discuss briefly :
 - (a) Etiological factors of Dental caries 4
 - (b) Squamous cell carcinoma of Tongue 4
6. Write briefly on :
 - (a) Attrition and abrasion 3
 - (b) Sialolithiasis 3
 - (c) Healing of extraction socket 3

ORAL PATHOLOGY & MICROBIOLOGY

Paper-III
(BDS-09)

Time : Three Hours] [Maximum Marks : 50

Note : (i) Attempt all questions. Draw labelled diagrams wherever necessary.

(ii) Use separate copy for part I and part II.

Part-I

- Q.1 Classy odontogenic tumors. Describe the etiology, clinical and histopathological fetures of Ameloblastoma. 8
- Q.2 Write in.brief
(a) Pleomorphic adonoma . 4
(b) Dentin Dysplasia 4
- Q.3 Write short notes on :
(i) Dentigerous cyst 3
(ii) ANUG 3
(iii) Histopathology of oral sub mucous fibrosis 3

PART-II

- ~~Q.4~~ Explain the etiology of oral cancer. Describe the clinical features and histopathology of squamous cell carcinoma. 8
- Q.5 write in brief
- ~~(a)~~ Cleidocranial dysplasia 4
 - ~~(b)~~ Cherubism 4
- Q.6 Write short notes on 9
- ~~(i)~~ Oral manifestation of AIDS.
 - ~~(ii)~~ Histopathology of oral lichen planus.
 - ~~(c)~~ Tzanck cells.

ORAL PATHOLOGY & MICROBIOLOGY

Paper - III

(BDS-09)

Time : Three Hours]

[Maximum Marks : 50

Note : Attempt **all** questions.

Draw labelled diagrams wherever necessary.

Part-I

1. Discuss the etiology of pulpal diseases. Describe in detail the clinical and histopathological features of Chronic Hyperplastic Pulpitis. 8
2. Classify the odontogenic tumours. Discuss the clinical and histologic features of ameloblastoma. 8

5143 \ 300 \ 2

P.T.O.

2

3. Write in brief about :

9
(3+3+3)

(a) Pleomorphic adenoma

(b) Erythema Multiforme

(c) Garre's Osteomyelitis.

Part-II

4. Draw well labelled histological diagrams of :

(a) Lichen Planus

9
(3+3+3)

(b) Odontogenic Keratocyst

(c) Burkitt's Lymphoma.

5. Define dental caries. Discuss its etiopathogenesis.

8

6. Differentiate between :

4+4

(a) Attrition, Abrasion and Erosion

(b) Dentigerous Cyst and Radicular Cyst.

ORAL PATHOLOGY & MICROBIOLOGY

Paper III

(BDS-090)

Time : Three Hours]

Note : Attempt *all* questions. Draw labelled diagrams wherever necessary.

Part I

1. Classify the developmental disorders of teeth. ★
Discuss the amelogenesis imperfecta. 7
2. Describe the histopathology of the following : 9
 - (i) Ameloblastoma
 - (ii) Lichen planus
 - (iii) Submucous fibrosis. ★

(2)

3. Write short notes on the following : 9

(i) Osteoradionecrosis

(ii) Fibrous dysplasia

(iii) Residual cyst.

Part II

4. Classify odontogenic cysts of oral cavity. Describe the etiopathology and histopathology of dentigerous cyst. 7

5. Describe the histopathology of the following : 9

(i) Dental caries

(ii) Squamous cell carcinoma

(iii) Pemphigus vulgaris.

6. Write short notes on the following : 9

(i) Aphthous ulcer

(ii) Warthin's tumour

(iii) Bell's Palsy.

ORAL PATHOLOGY & MICROBIOLOGY

Paper - III

(BDS-09)

P

Time : Three Hours]

[Maximum Marks : 50

Note : Attempt all questions.

Draw labelled diagrams wherever necessary.

Part - I

1. Classify the fibro-osseous lesions of oral cavity. 8
Explain the clinical and histologic features of fibrous dysplasia.
2. Define a cyst. Classify the odontogenic and non-odontogenic cysts. 8
Discuss the clinical, histological features of calcifying odontogenic cysts.

5143 / 220 / 2

P.T.O.

3. Write short notes on :

- (a) Trigeminal neuralgia
- (b) Necrotizing sialometaplasia
- (c) Oral manifestations of pernicious anemia.

9

Part - II

4. Define precancerous lesions and precancerous condition. List the criteria of dysplasia for a leukoplakia, carcinoma-in-situ and squamous cell carcinoma. Briefly write the histopathology of oral lichen planus.

8

5. Classify the heritable defects in dentition without generalised defects:

8

Explain the types of environmental enamel hypoplasia.

6. Draw labelled diagrams :

9

- (a) Pemphigus
- (b) Squamous cell carcinoma
- (c) Adenomatoid odontogenic tumour.

ORAL PATHOLOGY & MICROBIOLOGY

Paper III
(BDS-09)

Time : Three Hours] [Maximum Marks : 50

Note : Attempt all questions. Draw labelled diagrams wherever necessary.

Part I

1. Classify odontogenic tumors. Describe the clinical features, radiographic features, pathogenesis and histopathology of Ameloblastoma. 7
2. Describe the histopathology of the following : 9
 - (a) Lichen planus ✓
 - (b) Pleomorphic adenoma
 - (c) Enamel caries.
3. Write short notes on the following : 9
 - (a) Exfoliative cytology ★

(2)

- (P) ✓
- ~~(b)~~ Oral submucous fibrosis ✓
 - ~~(c)~~ Mucocoele.

9

Part II

- ✓
4. ✓ Discuss the etiology of pulpal disease. Describe in detail the clinical and histopathological features of chronic hyperplastic pulpitis. 7
 5. Write briefly on the following : 9
 - ~~(a)~~ Enamel hypoplasia ✓
 - ~~(b)~~ Median rhomboid glossitis ✓
 - ~~(c)~~ Gemination. ✓
 6. Write short notes on the following : 9
 - ~~(a)~~ Fibrous dysplasia
 - ~~(b)~~ Pernicious anaemia
 - ~~(c)~~ Steven Johnson's syndrome.

ORAL PATHOLOGY & MICROBIOLOGY

Paper III

(BDS-09)

Time : Three Hours]

[Maximum Marks : 50

Note : Attempt all questions. Draw labelled diagrams wherever necessary.

Part I

1. Classify odontogenic and non-odontogenic neoplasms of oral cavity.

Explain the clinical and histological features of ameloblastoma.
8

2. Classify the types of salivary gland neoplasms.

Discuss the most commonly occurring malignant neoplasm of salivary gland occurring in children.
8

(2)

3. Write short notes on :

9

~~(a)~~ Leongs premolar ~~★~~

~~(b)~~ Garre's osteomyelitis

~~(c)~~ Oral manifestations of Marfan syndrome.

Part II

4. Define dental caries and name the theories of caries etiology. Explain the zones of caries in enamel and dentin. 8

5. Define an ulcer. Name the types of ulcers.

Differentiate oral lesions of aphthous stomatitis, herpes simplex and syphilis. 8

6. Write short notes on :

9

~~(a)~~ Cherubism

5143

(3)

~~(b)~~ Histopathological features of odontogenic keratocyst

~~(c)~~ Congenital epulis of newborn ~~★~~

ORAL PATHOLOGY & MICROBIOLOGY

Paper III

(BDS-09)

Time : Three Hours] [Maximum Marks : 50

Note : Attempt all questions. Draw labelled diagrams.

1. Define pre-cancerous lesion and condition and describe etiology, clinical features and histopathology of Leukoplakia.
2. Describe the clinical features and histopathology of pleomorphic adenoma.
3. Enumerate the malignant tumours of epithelial origin and describe etiology, clinical features and histopathology of carcinoma of tongue.

Exmbr
Gandhi

1

(2)

4. Classify odontogenic tumours and describe adenomatoid odontogenic tumour.
5. Describe the clinical features and histopathology of Hodgkin's lymphoma.
6. List five vesicular bullous lesion effecting oral mucosa. Describe etiopathogenesis, clinical and histopathological features of Pemphigus vulgaris.
7. Define osteo radio necrosis. Write three etiologic factors leading to osteo radio necrosis of jaw. Add a note on its clinical features.
8. Describe briefly the oral manifestations of acquired syphilis.
Give the microscopic appearances of its different stages. List the various laboratory tests to diagnose syphilis.

5143

(3)

9. Write short notes on:
 - (a) Koplika spots
 - (b) Cancrum oris
 - (c) Garries osteomyelitis
 - (d) Shell teeth and ghost teeth
 - (e) Forbyes spots.
10. Write short notes on:
 - (a) Cherubism
 - (b) Hyperparathyroidism
 - (c) Epulis
 - (c) Paget's disease
 - (e) Angular cheilosis
 - (f) Lead poisoning.
