

NAAC 6.2.1

The ITS dental college has a well organised structure comprising of the Chairman, Vice Chairman, Secretary, Chief administrator, Administrator, Director PG Studies and Principal. The institution's managing committee is headed by the Chairman, and the organisational hierarchy helps in tidily channelized decision making process, taking into consideration all the aspects for smooth running of the institution.

The academic sector is sustained by carefully following a predetermined schedule laid down by the institute. All the proposals at the academic level are discussed at the HOD meeting in the presence of the Director PG studies and the Principal, and the matters are subsequently forwarded to the Chairman and discussed at the IQAC meetings.

At the administrative level, the proposals are put forth by the administrator and various policies with regard to both administrative and academics are collectively formulated, discussed and implemented in a high level meeting.

For implementation of the policies formulated and depending upon the nature of the work to be executed, various committees have been formulated viz. the clinical and IQAC Committee which evaluate departmental conduct and performs internal audits on a usual basis. The committees are represented by the entire spectrum of faculty and meet regularly to take various academic, financial and administrative decisions.

The core responsibility of the department lies with the Head of the Department. The College has enlisted Job Descriptions for all the faculty members and the HOD ensures that these responsibilities are abided by.

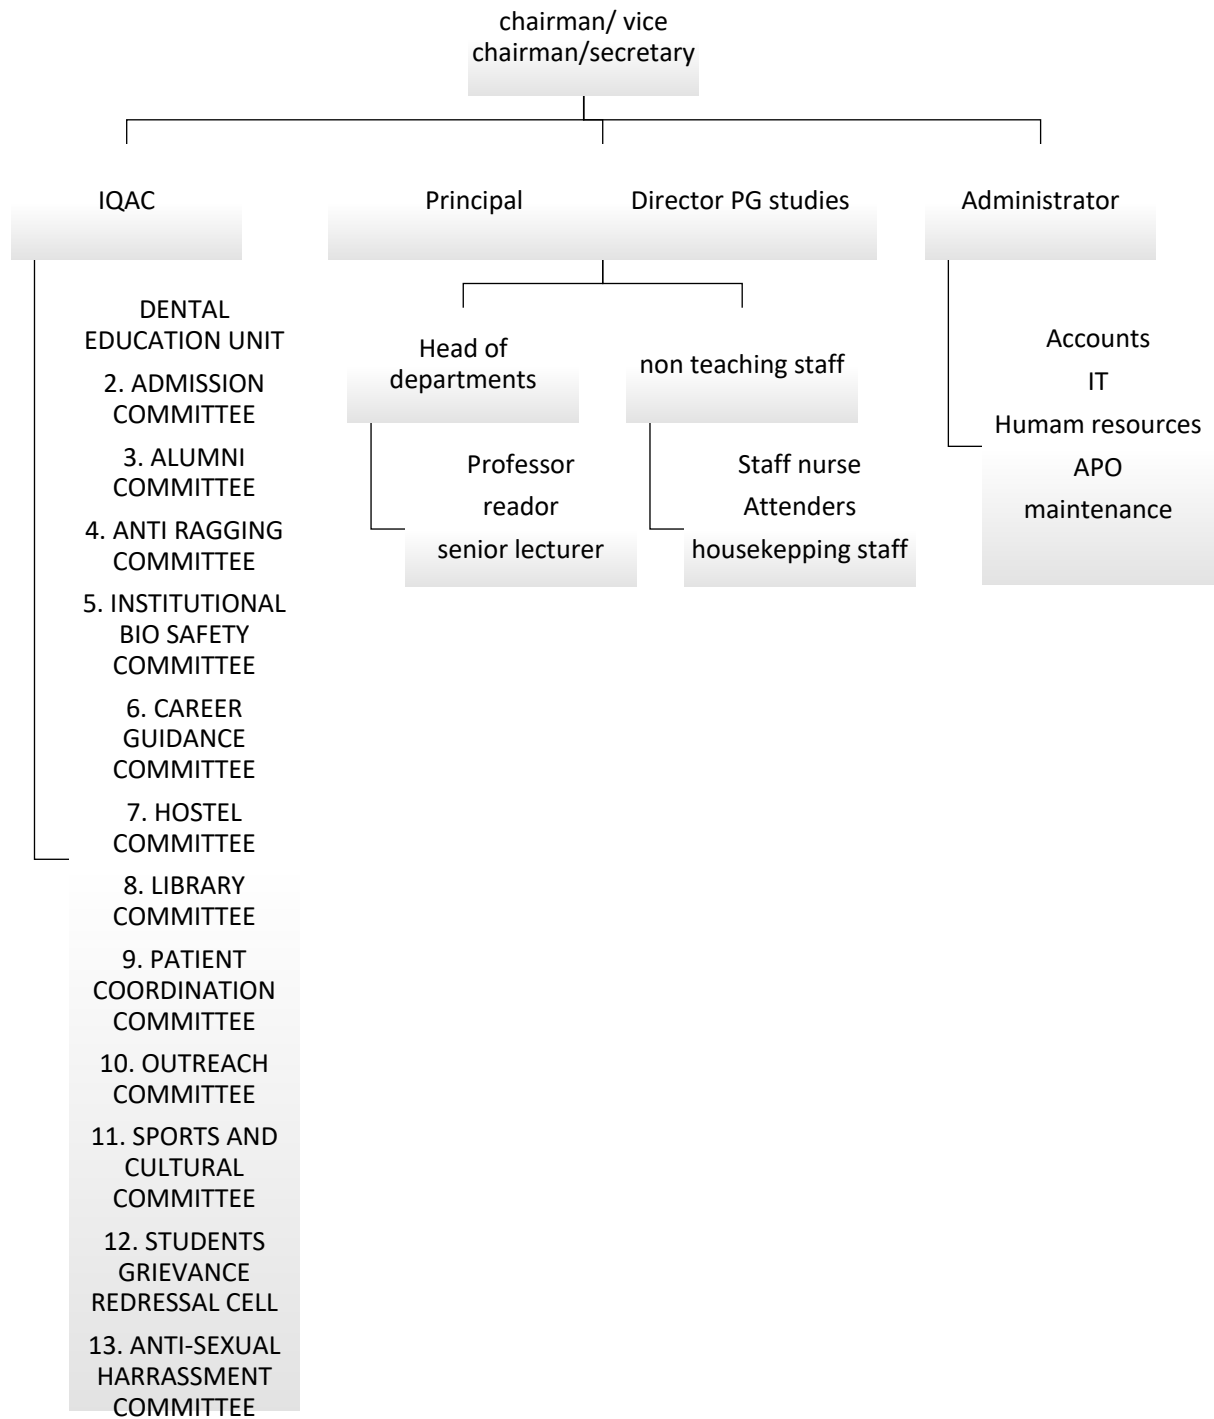

The faculty members guide and mentor the undergraduates and the postgraduate students in methods of teaching, research, publication and practice. Each faculty mentors approximately ten students in a particular batch and the mentorship role is followed on a monthly basis. Any issue pertaining to specified matters is thereafter reported to the batch coordinator. Moreover, A regular feedback on curriculum, learning experiences, infrastructure and support facilities is obtained from each student and conveyed for appropriate review.

Student Feedback Software For Employee: This software is used to obtain feedback by the students. Students are instructed to give feedbacks regarding the faculty and also about the problems they are facing, so that necessary action can be taken to resolve the problem in an appropriate manner.

The outcome of the feedback with regard to the teaching skills is intimated to the concerned faculty which provides them with an opportunity to make improvements in their respective fields. The heads of the Department also conduct periodic meetings to discuss problems and range of issues related to the proper functioning of the department and a proper feedback is obtained with changes implemented as desired.

Monthly stock and indent records, monthly income record and patient statistics are also maintained to ensure departmental accountability.

All complaints regarding maintenance matters of the institution are lodged through the almighty helpdesk software. The software has a time bound escalation system for unresolved complaints which ascend up to the highest levels of management in case of complex issues.

1) SWOC Analysis

Strengths:

- Exquisitely structured management system of the organization with an unambiguous hierarchy.
- Impeccable feedback system, with quick detention of stakeholder's grievances.
- Immaculate Community-Social network with magnanimous presence in rural regions for social welfare and mass outreach
- Prime location on arterial National Highway 58 connecting Delhi NCR with majority of Western Uttar Pradesh State.
- State of the art Infrastructure, Unparalleled student centric facilities and One of its kind – Centre for Advanced Research in the entire region.
- Immensely dedicated and experienced faculty committed to efficient teaching-learning process duly supported by a proficient administration.
- The college treatment charges are much lower as compared to those in surrounding institutes delivering oral health care.

Weakness:

- Lack of autonomy in curriculum development, although the institute gives timely suggestions to the regulatory bodies for curricular reinforcements.
- Social and regional factors in the adjoining areas which pose a typical barrier for treatment strategy.
- Low economic background of patients reporting to the institute thus elevating a need for more resources.

Opportunities:

- Globally competent programs in collaboration with International enterprises molded to student's expediency are promising avenues to further enhance institute's visibility.
- To begin with more modular courses extending beyond core curriculum of undergraduate and postgraduate courses, thus enriching professional acumen.
- Enhancing student-teacher interaction by reducing Student teacher ratio.
- Expanding capacity of physical infrastructure with growing patient footfall.
- To attract a larger number of quality corporate companies for campus recruitment drives.

Challenges:

- To counsel patients for undergoing complete treatment owing to their sparse educational backgrounds.
- To ameliorate course objectives so as to comply with dynamism of industrial settings in terms of employment and market absorption.

EMPLOYEE MANAGEMENT SYSTEM:

This portal allows for faculty attendance management, leave application and employee salary records and salary slips. The software is used to manage salary and leaves of employees. Login ID is generated for each employee through which they can access their leave records, apply for leaves and check the status of approval of the leaves by

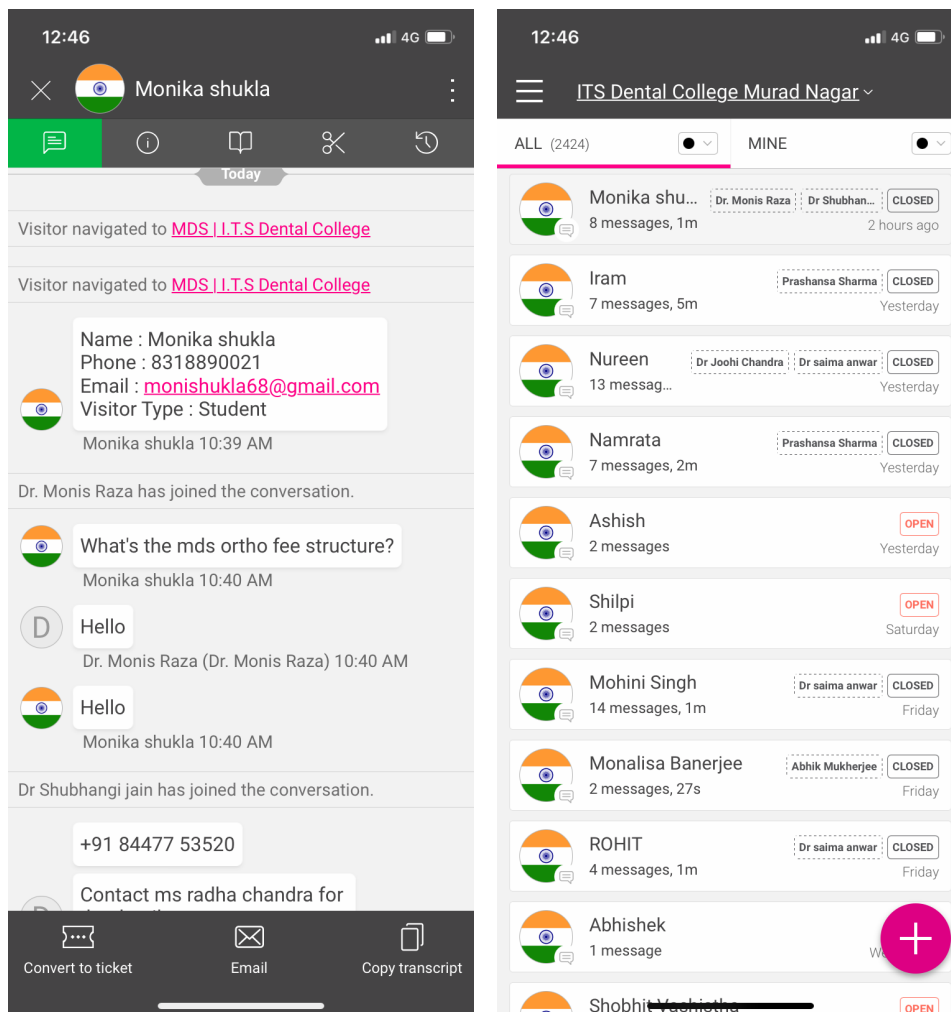

higher authorities. This software also generates esalary slips for the benefit of the employees.

TWAK.TO STUDENT ADMISSION AND SUPPORT SOFTWARE.

The chat software accessed through the I.T.S dental college, Muradnagar official website streamlines the admission process. The interested candidate, their parents or aspirants looking to join the institute as a teaching faculty may contact to get relevant information.

The software is a chat portal through which online chatting is done to provide college information to the students as well as their parents. It has dedicated portal for interaction between student teacher, teacher parent and patient doctor platforms. The software is designated to solve the problems of students, related to both academics and as well as hostels. Parents are endowed with the information of the activities of their wards and equally about their progress. Patients can communicate with the doctor also via this software and solve their queries pertaining to dental treatment.

Almighty Help Desk:

All complaints regarding maintenance matters of the institution are lodged through this software. The software has a time bound escalation system for unresolved complaints which ascend up to the highest levels of management in case of complex issues.

Student Feedback Software For Employee:

This software is used to obtain feedback by the students. Students are instructed to give feedbacks regarding the faculty and also about the problems they are facing, so that necessary action can be taken to resolve the problem in an appropriate manner.
