Apoorv pratap	2019	Mostly attending (over 75%)	Mostly difficulty in connectivity	Good	Not satisfactory	It is difficult to ask questions online and doubts do not get cleared	Not satisfactory	Require more videos	Need improvement with the voiceover	Students were adequately assessed	Sir/ma'am In the time of emergency caused by corona these classes are necessary but it cannot replace the classes conducted in the college .The videos that have been provided by you every time have a delayed voice or we could not hear it when played in the class. I highly respect the fact that you are trying to help us throughout the study but unfortunately the online classes are not enough And if due to some connection problem If we or the teacher is unable to connect to the class it is hard to co up with the next one I hope the future will bring us better technology for online classes but now it is really hard to study online. I hope you will understand
Lakshmi	2019	Regularly attending (over 90%)	Mostly difficulty in connectivity	Good	Classroom discussion is better than online discussion	Same as classroom teaching	Good	Require more videos	Need improvement with the voiceover	Assessment should have been through written exams	Please try to send us the veideo of practicals and if possible take 2classes a day as it is difficult for us to revise the subjects and to complete the assignments as well. Thank you.
Kanika Kapoor	2019	Regularly attending (over 90%)	No hindrance	Good	Online discussion is same as classroom	Same as classroom teaching	Good	Adequate videos	Good and self explanatory	Assessment should be via MCQs	By reducing the duration of time allotted per lecture.
Aanchal Dabas	2019	Regularly attending (over 90%)	No hindrance	Good	Online discussion is same as classroom	Same as classroom teaching	Good	Adequate videos	Good and self explanatory	Assessment should be via MCQs	According to me number of classes should not be more than 2 per day.

Priyanka Singh	2019	Regularly attending (over 90%)	Sometimes difficulty in connectivity	Good	Classroom discussion is better than online discussion	Same as classroom teaching	Satisfactory	Adequate videos	Good and self explanatory	Students were adequately assessed	The amount of time we spend on our phones has significantly increased due to everything online and so has pressure on our eyes and brain. I am grateful for amount of efforts faculty and staff is putting in conducting the classes but I Don't think i am getting the outcome i used to get in the classroom. I feel some teachers only focus on a group of students and the rest of us suffer and are not able to concentrate. Teaching should be unbiased and teacher should fix then end time for doubts open and rest lecture Should go smoothly. If teachers muted the rest of the class while teaching and students raised hands for asking questions instead of speaking in between and interrupting the focus would remain constant. Also i would like constant vivas in class randomly to everyone so that everyone pays more attention in class and after a chapter some mcq test or viva would be great. Amount of class time shall be reduced so that we get more time for self study and syllabus goes a bit slower as it is very difficult to

Aifa Anwar	2017	Regularly attending (over 90%)	Sometimes difficulty in connectivity	Good	Classroom discussion is better than online discussion	Same as classroom teaching	Satisfactory	Require more videos	Need improvement with the voiceover	Assessment should have been through written exams	Exams should be on written basis which would have otherwise had same set of questions to judge students who are at par with one another. Viva voce includes different questions and different difficulty level for different students and some are asked for eg 10 questions others on other hand are judged on the basis of 5 questions only. This doesn't make sense plus in the end we are supposed to write an exam for uni so exam should be written not viva voce. Also, lectures should be recorded because most of us face connection issues and sometimes miss the most important part/topic which later on makes it difficult for us to understand. Recorded lectures would be beneficial in every sense be it for revision for important topics and for everything else. Thank you.

Raginee Bhattacharya	2017	Regularly attending (over 90%)	Almost always a problem	Good	Online discussion is more than classroom	It is easier to ask questions online and get doubts cleared	Satisfactory	Require more videos	Good and self explanatory	Assessment should be via MCQs	As a student hailing from the north-eastern region on India, it is often difficult for one to get good connectivity. One often tends to get disconnected and therefore have to reconnect several times within the span of the same lecture (or even during the viva exams). One hopes attendance is still granted, taking into account the circumstances. Teachers themselves have on several accounts found it difficult to join and start a lecture on time, owing to bad connectivity. One hopes that the teachers/administration will understand our situation as well and grant us attendance. Thankyou.

Ojasvi Vachharajani	2016	Regularly attending (over 90%)	No hindrance	Very good	Online discussion is more than classroom	It is easier to ask questions online and get doubts cleared	Very good	Adequate videos	Need improvement with the voiceover	Assessment should have been through written exams	In viva voice different groups of students had different different teachers for the same subject. Due to this there was a non uniformity in the types of questions being asked as well as the marking system. Hence though viva voice is a good option but there should be a uniformity for every student. Plus in universities we will have to give a 3 hours written exam, hence that practice we have lost, so if it's possible for the college to conduct a 3 hours written exam for sent ups even if online with our video cameras on and with an invigilator, it would be better.

If possible the duration of class hours should be reduced and class should be over by 12:30 or 1pm. Internal assessment should not just be on the basis of individual viva-voce since it's an online classroom which is equivalent for all and one, there should also be a column of evaluation on the basis of student active interaction and enthusiasm during the class hours. It's only 1-2 students who mostly responds in the class. As everything has been judged on the online basis this must be a part of evaluation as well. Discussion of previous question papers instead of repeating a revision lecture.
